NorthSails
WINDSURF TECHNOLOGY SINCE 1981

2014

IDOL_LTD - Ultralight Competition Freestyle

Light, lighter and very radical! The new IDOL_LTD is the most sophisticated, extreme freestyle production sail that we have ever built.

Key Features:

- > **01 NEW:** Ultra-light for maximum handling thanks to the trend setting high-tech yachting laminate "ODL" and 4 mil ULTRA.FILM, the lightest monofilm on the market.
- > **02** 3 ultra light tube battens
- > **03** PURE.PATCH.TECHNOLOGY at the clew: luff and batten pocket ends make for 50% weight savings
- > **04** iROCKET, NorthSails lightest batten tensioner of all time
- > **05** Exclusively designed for RDM masts

Size	4,0	4,4	4,8	5,2
Boom max (cm)	151	155	160	166
Luff max (cm)	375	395	412	434
Mast: Length ¹	370	400	400	430
Mast: Geometry ²	RDM/--	RDM/--	RDM/--	RDM/--

SOUL - Wave & Style Soul Surfing

The radically different sail for chilled out Wave and stylish Soul-riders, which turns even lousy conditions into a super session! SUP-compatible!

Key Features:

- > **01** Max. planing power thanks to tight leech
- > **02** Very luffable due to elastic dacron luff panel
- > **03** Further draft back position for adjustable power through backhand
- > **04** Extremely sturdy, unbreakable epoxy battens
- > **05** Top performance on RDM and SDM masts

Size	4,8	5,2	5,7	6,4
	Wave	Wave	Wave	Style
Boom max (cm)	173	178	185	194
Luff max (cm)	417	434	446	472
Mast: Length ¹	400	430	430	460
Mast: Geometry ²	RDM/SDM	RDM/SDM	RDM/SDM	SDM/-
