

AVANTI

Avanti Sails press release for immediate distribution, 20th February 2015

Avanti Sails is extremely proud to be able to add Camille Juban to our international team!

Camille is the first pure wave rider to carry the Avanti flag and is renowned for his radical wave sailing and fluid style. The PWA and the AWT tours will be his main focus this season. Camille will be playing an intricate role in supplying rider feedback for the continued development of our market leading string membrane designs and technology.

In wavesailing, I have been extremely lucky to work with, and design sails for, many of the best athletes in our sport. With Camille, I have the perfect rider and collaborator. I can't wait to see where this goes.

--DAN KASELER

The first event for Camille will start this weekend with the AWT (American Windsurf Tour) stop at the famous Ponta Preta location in Cape Verde. With a fantastic forecast on tap, look for great things. Following the event, check www.avantisails.com for pics, interviews, behind the scenes snapshots, and hype.

We are thrilled to sign Camille Juban to our team. At only 24-years old, and an exceptional world-class talent with the ability to shine at the very highest level in both port and starboard tack down-the-line and onshore conditions, Camille represents exactly the type of all-round wave sailor we have been coveting.
